

To Canada's National Energy Board

I join with San Juan Islanders for Safe Shipping in asking you to reject the Kinder Morgan Trans Mountain Pipeline Expansion project application.

The project application does not adequately address the risk of oil spills nor does it identify sufficient funding for oil spill clean-up restoration, penalties, and damages.

The project application does not address the unique challenges and costs of cleaning up a spill of oil sands/bitumen/diluted bitumen products.

If the project is permitted, I join with San Juan Islanders for Safe Shipping in asking that you impose restrictions and conditions that address all potential adverse impacts of the project, including all potential adverse impacts from oil spills and marine shipping, including accidents and malfunctions.

I would be impacted by the project's potential adverse impacts to the San Juan Islands because... (see boxes checked below)

	<div> In the San Juan Islands... <input type="checkbox"/> I walk on the shore <input type="checkbox"/> I am a boater <input type="checkbox"/> I watch the Orca Whales <input type="checkbox"/> I own property <input type="checkbox"/> I own a business <input type="checkbox"/> I am a birder <input type="checkbox"/> I eat local seafood <input type="checkbox"/> I live here </div>								PRINT NAME + SIGNATURE	ADDRESS
